

# Carbon Reduction Plan

**Supplier name:** Sinapi Biomedical UK Ltd

**Publication date:** 02 May 2023

Sinapi Biomedical UK Ltd was registered in May 2023 with the UK Companies House and therefore a new entrant to the market (trading for less than 12 months). This is our commitment, and we will publish a full Carbon Reduction Plan (CRP) as soon as possible.

## Commitment to achieving Net Zero

Sinapi Biomedical (UK) Ltd commits to reach Net Zero emissions by 2035. Our Net Zero target is 15 years ahead of the 2050 target set out in the standard Carbon Reduction Plan requirements. We will reduce pollution arising from our operations and we will seek to continually improve our environmental performance through sustainable initiatives.

## Carbon Reduction Projects

### Future Carbon Reduction Initiatives

- Determine Baseline Emissions Footprint (Scope 1,2, and 3).
- Determine Emissions reduction targets per year until net zero by 2035.
- Install 100% LED lighting in office to minimise energy consumption.
- Power the office with 100% renewable electricity.
- Increase natural light in the office, where possible, to reduce the need for artificial lighting.
- Embrace the hybrid working model to decrease travel.
- Company vehicles to be fully electric.
- Company vehicles to be charge with 100% renewable electricity.
- Only book at hotels with a better green rating.
- Evaluation of the requirements for ISO 14001 certification.

## Declaration and Sign Off

This Carbon Reduction Plan has been reviewed and signed off by the management team of Sinapi Biomedical UK Ltd.
